FOR IMMEDIATE RELEASE

Applied Vision Recognized as Leader in Job Creation in Northeast Ohio

AKRON, OH—June 5, 2008—Applied Vision Corporation recently received the 2008 Manny Award for new job creation in Northeast Ohio, where the company is based. The global leader in machine vision inspection systems for container manufacturing was recognized for an 80 percent employment growth over the past three years, spurred by a 260 percent increase in sales over the past five years.

“Our customer-focused business strategy, advanced engineering capabilities and commitment to the absolute highest quality in manufacturing have all contributed to our growth,” said Manijeh Novini, chief financial officer of Applied Vision. “The new talent we have added to our team is essential in inspiring our continued success and maintaining our global leadership in the container manufacturing market.”

The Manny Awards, presented by *Inside Business* Magazine, celebrate premier manufacturers who contribute to the growth and advancement of Northeast Ohio. Since 1999, the Manny Awards have recognized manufacturing excellence in the region. Nominations for the Manny Award are made by individual companies, industry experts and business leaders based on a company's innovation and best practices. For more information on the Manny Awards, visit www.inside-business.com.

Applied Vision Corporation designs and manufactures application-specific machine vision inspection systems for packaging, food and beverage containers, and color printing. Applied Vision systems are sold worldwide through original equipment manufacturers (OEMs), value added resellers (VARs), full-service distributors and company direct.
