25 March 2020

To our valued customers and suppliers,

We are Open!

Applied Vision Corporation and Applied Vision Service Corporation manufactures, installs, and maintains quality control inspection equipment needed for the food and beverage container manufacturing industry. These inspections are an essential part of the infrastructure for the food and beverage industry. It is critical that Applied Vision remains open.

We continue to closely monitor the rapidly changing developments surrounding the various governments' response, guidance and orders regarding the covid-19-coronavirus ("COVID-19") pandemic, including any lock down orders which may potentially impact our ability to supply to the metal and glass containers required by our customers.

Thank you all for your service and dedication to our company. The health and safety of our employees is our top priority. We will get through this together and we will be even stronger.

Sincerely,

Scott Brandon  
VP of Operations and Metal Container Sales
